IN THE CLAIMS

The amended claims are as follows. Claims with insertions and deletions are shown in

Appendix A.

54. A process for analyzing DNA comprising a step of isolating nucleic acids, wherein the step of isolating comprises the steps of:

- DI
- (a) contacting a biological material that contains DNA with a solid support treated with a lysing reagent wherein the solid support has not contacted the biological material at the time of treatment;
 - (b) heating the solid support;
